123-456-7890 (Ensure the -)

Tab

dean@gwb.org (Ensure the gwb.org)

Tab

Choose a banker

Tab

Enter date in 2020 only

Tab

Enter anything in description box

Tab

Enter (To choose file)

Tab

Check T&C

Details of the form:

Field	Validation	Error	Format Expected	Note
Name	Validates the format and if its wrong then throws an error message	Invalid format for name-> Doesn't give expected format	Firstname,Lastname Eg : Himanshi,Chetwani	<ul style="list-style-type: none">Validates only if Firstname,LastNameDoesn't give this information unless form completely submittedAlways gives a message that you are entering the name if you hover over the field

Himanshi Chetwani (hc9165)
Homework-1

				<ul style="list-style-type: none"> Changes the color of the input box to red/green based on invalid/valid input respectively
Number	Validates the format and if its wrong then throws an error message	Invalid format for number-> Doesn't give expected format	123-456-7890	<ul style="list-style-type: none"> Validates only if in the format 123-456-7890 Doesn't give this information unless form completely submitted Always gives a message that you are entering the number if you hover over the field Changes the color of the input box to red/green based on invalid/valid input respectively
Email ID	Validates the format and if its wrong then throws an error message	Invalid format for email id-> Doesn't give expected format but a small hint about the format	xyz@gwb.org	<ul style="list-style-type: none"> Validates only if in the format xyz@gwb.org In this case gives the information while typing Changes the color of the input box to red/green based on invalid/valid input respectively
Radio Button – Banker choice	<ul style="list-style-type: none"> Ensures that at least one banker is chosen 	If not even one banker chosen gives the error – Radio button not checked	One choice required	<ul style="list-style-type: none"> Ensures that one banker is chosen Doesn't tell us to choose banker. Instead says radio button not chosen. If the user doesn't understand the term radio button, they will be confused
Date Field	Ensures that the date chosen is from 2020	If not in 2020 gives –	Any date in 2020	<ul style="list-style-type: none"> Ensures date is added for year 2020

Himanshi Chetwani (hc9165)
Homework-1

		"Invalid date"		<ul style="list-style-type: none">• Adds an online add to screen
Text Area	Asks you to optionally enter your concern but it turns out to be a required field. Informs you only at the end.	Invalid Entry in Description Box	Ensure there is some text even though it says optional	<ul style="list-style-type: none">• Field placeholder says optional but it is a required field
File	Asks you to add a file if needed but it's a required field	You haven't chosen any file	Ensures you add a file	<ul style="list-style-type: none">• Ensures you add a file even if its optional
Ok and Reset	<ul style="list-style-type: none">• OK reloads the page with no confirmation• Intentionally not called submit• Reset- also resets the page	-	-	<ul style="list-style-type: none">• OK reloads the page with no confirmation• Reset resets the page

DOM Manipulation

1. On choosing a banker a date field for taking the appointment is inserted
2. On adding the date and online add gets inserted

Confirmation Page

1. OK – Reloads the page for a new set of entry with no confirmation. (It is confusing because every error causes you to reset the page as well)
2. RESET – Resets the page to re enter details
